*By Resolution No. 397 of the Council of Ministers of the Republic of Belarus dated July 22, 2025, in 2026 the working day of April 20 (Monday) was moved to April 25 (Saturday).*

There are no drivings restrictions on weekends and holidays.

In accordance with the [Decree](#) of the President of the Republic of Belarus dated June 19, 2019 No. 239 «On the passage of heavy and (or) large-sized vehicles», permissible axle weights (sums of axle weights) of vehicles under unfavorable weather (meteorological) conditions have been established.

By the Resolution of the Ministry of Transport and Communications of the Republic of Belarus, temporary restrictions on axle loads of vehicles and self-propelled machines are introduced annually by travelling on republican public roads (or sections thereof) with asphalt concrete pavement: from 11:00 a.m. to 8:00 p.m. inclusive, when the daytime air temperature exceeds 25 degrees Celsius, the maximum permissible load on a single axle of vehicles and self-propelled machines must not exceed 6 tons.

The resolution also defines a list of highways (sections thereof), as well as vehicles and self-propelled machines performing types of transportation, to which temporary restrictions do not apply.

Category D carries restrictions (ban) on all hazardous goods, which must be marked in accordance with ADR regulations, with the exception of UN nos. 2919, 3291, 3331, 3359 and 3373.

Tunnel restrictions do not apply when hazardous goods are carried in accordance with the provisions in ADR 1.1.3 concerning exemptions.

See link below

## **Additional information**

The transport of hazardous goods across the Øresund Bridge incurs no additional charges provided the vehicle can pass through the toll station in the normal way. If the transport is especially long, wide, high or heavy, special charges will apply.

It is not necessary to contact Storebælt if:

The vehicle is in bridge class 100 or below

The vehicle is 3.3 metres wide or narrower

The axle load is less than 12 tonnes

Please note: Vehicles wider than 2.8 metres must pass the toll booth using the far-right lane (the cash lane).

## **Additional information**

There are a number of guidelines that you must take into account, when driving over the Storebælt Bridge with a special transport.

Guidelines for using the Storebælt crossing with vehicles classified as special transport: Vehicles wider than 3.3 metres

You must call the Storebælt Bridge's control room on +45 58 30 30 50 no less than two hours before crossing the bridge.

Vehicles larger than bridge class 100 and/or wider than 4.5 metres, as well as slow vehicles travelling at less than 50 km/h.

You must have a permit from the police and bring this permit with you when using the Storebælt crossing. Together with the police permit, there is a letter from Storebælt that contains conditions for using the Storebælt crossing.

## **Additional information**

From 1 July 2020, vehicles above 3.5 tonnes (buses and lorries) must be registered on, or later than, 1 October 2009 in order to be allowed to drive within low emission zones in Denmark. Euro 5 or EEV heavy vehicles can also enter the low emission zones.

In case the foreign lorry or bus has been first registered before 1 October 2009, the vehicle must be registered in the Danish system again with documentation proving a retrofitted particulate filter and/or euronorm.

It has been decided to discontinue the low emission permit; this means that a low emission permit will no longer be required and that driving in the zones will no longer be controlled by the low emission permit. Detailed information is available in the leaflets attached and through the URL.

# Ulteriori restrizioni alla circolazione dei veicoli per il trasporto merci per l'anno 2026

-08/01/2026

**Vi informiamo della pubblicazione sulla Gazzetta Ufficiale del decreto del 26 dicembre 2025 relativo agli ulteriori divieti di circolazione dei veicoli adibiti al trasporto merci per l'anno 2026.**

### Août :

Les samedis 1er et 8, de 7h à 19h

Il presente testo integra, per cinque sabati del periodo invernale e cinque sabati del periodo estivo dell'anno 2026 (vedere tabella sottostante), il regime generale di divieto di circolazione dei veicoli per il trasporto di merci con un peso totale autorizzato superiore a 7,5 tonnellate nei sabati e nelle prefestive dalle ore 22.00 alle ore 22.00 della domenica e dei giorni festivi.

Nota:

Nel 2023 e nel 2024 è stata condotta una sperimentazione che ha concesso esenzioni alle restrizioni supplementari al traffico di veicoli pesanti. Tali esenzioni si applicavano alle regioni Hauts-de-France, Grand Est e Borgogna. Erano in vigore in una sola direzione il primo sabato di luglio e in quella opposta l'ultimo sabato di agosto.

Sulla base dei dati disponibili, la Direzione Generale per le Infrastrutture, i Trasporti e il Mare (DGITM) ha osservato che, dall'avvio della sperimentazione, i modelli di traffico sono rimasti invariati e non sono stati rilevati effetti particolari. I riscontri hanno evidenziato un impatto neutro: né un aumento del traffico né una diminuzione significativa del traffico sulle strade in cui la sperimentazione è stata autorizzata.

Di conseguenza, e alla luce di questi elementi, la DGITM ha ritenuto che non fosse pertinente rinnovare questa misura nel 2026.

Saperne di più:

- Ordinanza del 26 dicembre 2025 relativa ad ulteriori divieti di circolazione dei veicoli adibiti al trasporto merci per l'anno 2026 (<https://www.legifrance.gouv.fr/jorf/id/JORFTEXT000053324056>)

# <sup>1</sup> Driving Restrictions, Goods Transport 2026 United Kingdom

There are no driving restrictions at weekends or on public holidays in the United Kingdom.

## Local restrictions

<b>Vehicles concerned</b>	trucks exceeding 18t total permissible weight
<b>Prohibition</b>	during the week, from 21h00 to 07h00; at weekends, from 13h00 on Saturday to 07h00 on Monday
<b>Area</b>	Greater London - all roads, except motorways and certain major roads, in those areas administered by the London Boroughs' Transport Scheme (applies to all 33 London boroughs)
<b>Exceptions</b>	<ul style="list-style-type: none"><li>• vehicles operating under special authorisation because they are carrying an abnormal indivisible load;</li><li>• vehicles "whose load is required for the purposes of dealing with any emergency affecting the safety of persons or property".</li></ul>

## THE CHARGING OF THE UK ROAD USER LEVY RETURNED ON 1 AUGUST 2023 for vehicle 12tns and above.

<https://www.gov.uk/government/collections/hgv-road-user-levy>

Transport operators must apply for exemption permits which are supplied free of charge by the

London Lorry Control Team  
London Councils  
59 ½ Southwark Street  
LONDON SE1 0AL  
Tel: (+44 20) 7934 9915

e-mail: [lorry.control@londoncouncils.gov.uk](mailto:lorry.control@londoncouncils.gov.uk)

In certain circumstances short-term permits are available at short notice for single journeys. Operators should note, however, that permit conditions impose special routing requirements on drivers. For more detailed information, operators should contact the above office.

## Local restrictions – outside of London

Outside of London there are numerous other restrictions for heavy goods vehicles both in town centres and rural areas of outstanding natural beauty. Drivers should follow the special signs guiding them through or around areas where restrictions are in place.

For information on the London Low Emission Zone, Ultra Low Emission Zone and Congestion Charging area go to [www.tfl.gov.uk/low\\_emission\\_zone](http://www.tfl.gov.uk/low_emission_zone) [www.tfl.gov.uk/roadusers/congestioncharging](http://www.tfl.gov.uk/roadusers/congestioncharging)  
<https://tfl.gov.uk/modes/driving/ultra-low-emission-zone>

More and more cities in the UK are introducing Clean Air Zones. Information on those and other LEZs or city access regulations can be found at [www.urbanaccessregulations.eu](http://www.urbanaccessregulations.eu) or <https://www.gov.uk/guidance/driving-in-a-clean-air-zone> .

**Scottish LEZs** in Aberdeen, Dundee, Edinburgh, Glasgow all became enforceable by Spring 2024. Vehicles must be Euro 6 to enter the zones. There is no pre-registration process therefore ALL owners of foreign vehicles who enter the zones will receive a penalty notice letter, which will need responding to with the evidence proving the Euro rating of the vehicle to enable a retraction of the penalty to be given. More information at <https://lowemissionzones.scot/>

## **Additional information**

The President of the IMT, I.P. may grant special circulation permits for vehicles:

- (\* and \*\*) That carry out loading or unloading during the periods provided in points, provided that the facilities where the loading or unloading takes place are served only by a road subject to driving bans and that the use of this road allows direct access to another route not subject to driving bans;
- Transporting of dangerous goods that are essential for the continuous operation of production units or for the satisfaction of exceptional needs for limited periods;
- When their displacement is indispensable and urgent, given reasons of public interest that it is important to safeguard.

For the purposes of the preceding paragraph, the IMT, IP, may request an opinion from the competent official entities on the indispensability and urgency of transport.

For the purpose of preparing the authorization request, the entity interested in receiving the dangerous goods or with facilities exclusively served by routes subject to restrictions, must submit a reasoned request, which states:

- a) The exceptional circumstances underlying the request;
- b) The supplier and the shipper of the goods;
- c) The place of loading and unloading of the goods;
- d) In the case provided in the first paragraph, first indent, the identification of the vehicles to be used and the indication of the days and hours foreseen for circulation;
- e) The identification of the goods to be transported, mentioning the UN identification number and the official transport name.

The IMT, IP, publishes on its website information on the terms and the way in which authorization requests must be formulated.

The model of the special circulation permit, as well as the documents that accompany it and which, if requested, must be presented to the road inspection authorities, are approved by deliberation of the board of directors of IMT, IP.

In case of emergency, the vehicle may circulate without the authorization granted by the IMT, IP, provided that:

- a) The authorization request has been entered at the IMT, IP before the transport is carried out;
- b) The territorially competent security force at the place of commencement of the transport has declared, in writing, that it does not object to the transport being carried out.
